9. **International**

- a. World leaders have **pledged to accelerate work on tests, drugs and vaccines for COVID** and to **share them** around the globe, but **US did not take part** in the launch of WHO initiative.
- b. WHO denies any **evidence of people recovered** having antibodies are **protected against a second infection**.
- c. COVID vaccine **shows promise in monkey trials**; claims Chinese company.
- d. No new deaths reported in China for 10th straight day, signifies **successful Chinese strategy to combat COVID. Chinese experience should be fully capitalised for effective mitigation of COVID spread in Pakistan**.
- e. A Brazilian study investigating effectiveness of **anti-malaria drug chloroquine in treating patients with COVID** was halted on **safety concerns**, after a high dose of drug proved **lethal for some patients**.

10. **National**

- a. President **expressed his satisfaction over implementation of 20 points guidelines** for prayers and congregation in Islamabad; an **effective and impartial mechanism** needs to be instituted to evaluate **implementation of guidelines** all across the country.
- b. A **senior doctor at Peshawar's Hayatabad Medical Complex** passed away from **COVID** early on Saturday morning, also **nominated for civil award** for his services against COVID.
- c. Pakistan's effective **use of intelligence services to track COVID cases** **has been extensively quoted around the world as a success story**.
- d. Just a week after acceding to demand of clergy regarding congregational prayers, government has cautioned people that **COVID can rapidly spread in month of Ramazan**.
